КУЛЬТУРЫ, ОБРАЗОВАНИЯ И ИСКУССТВА

Historical background

2002 – 2003

Latvia at the beginning of accession to the European Union. Complicated stage of renewal of state independence has had a negative impact on the economic situation of Latvia, namely the shutdown of manufacturing enterprises, undeveloped infrastructure, the elimination of working places and a bad condition of rural economy.

Rural area on the periphery of Latvian districts finds itself in the very pitiable condition and only farseeing and penetrating look to the unique possibilities and hidden resources of Latvian plains could perceive perspectives of forgotten countryside.

First steps in the Project

2003 - 2004

Initially it was an abandoned place surrounded by some ruins of a cattle-shed and many years standing oaks located on the plain close by the bank of a little lake.

A former agricultural area was transformed into a construction base. The process of transfiguration of the area has started with the building of a house on the foundations of the remained ruins of the cattle-shed wherewith giving a new life to a derelict land.

First of all, was built a hotel and restaurant. Conducted modern engineering systems, reconstructed power supply system and has build a multifunctional hall where a business school established its headquarters.

The complex has been supplemented by one more exclusive artistic work, a Glass Pyramid, which serves as a lecturing hall for teaching high substances of life.

It represents the embodiment of geometry of eternal life:

“The Pyramid has a metaphysic meaning. It helps human to meet a spiritual experience becoming afterwards his inner part of the mind.”

Today this Pyramid are the visit card of LIZARI.

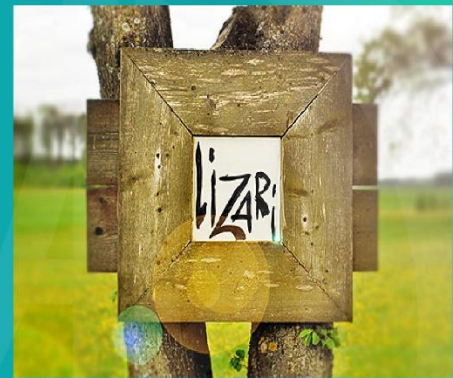

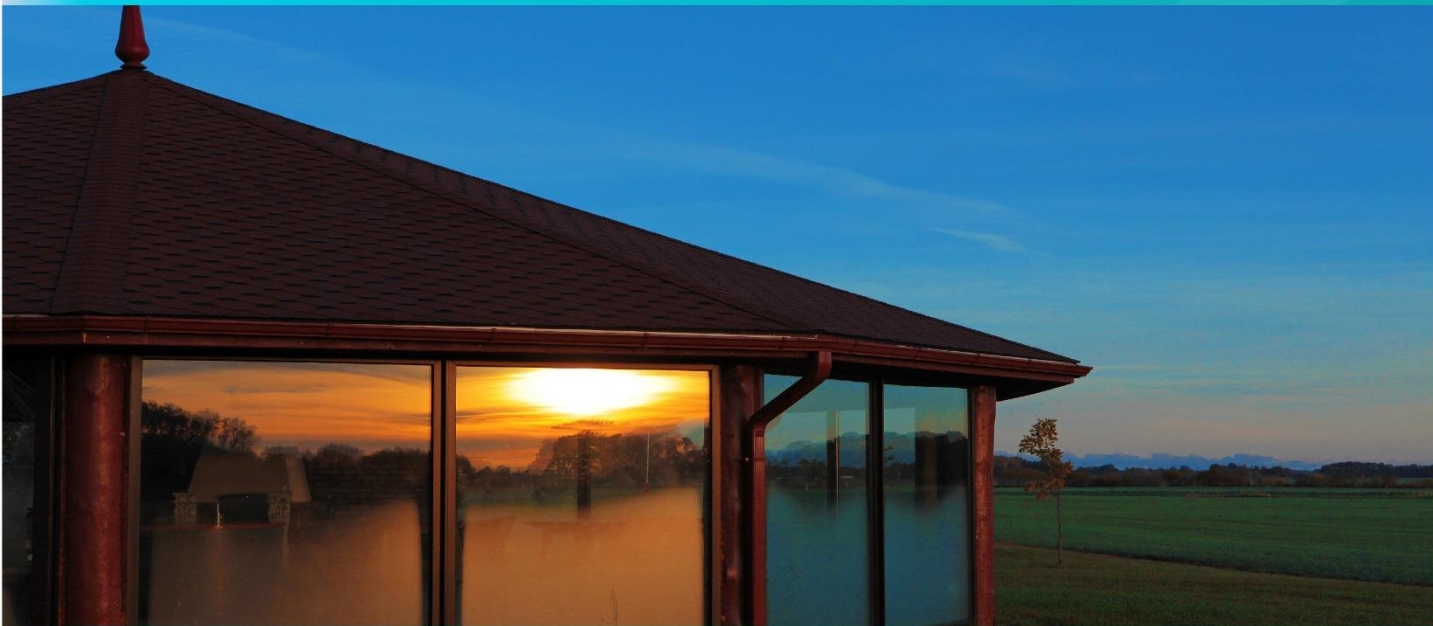

As a result of a concrete initiative today on the beautiful plain area is standing a unique complex consisting of:

- Hotel with 38 double rooms and new hotel with 21 single rooms, with all conveniences
- Business Center and multifunctional hall, consisting of a hall for 50 people and a hall for 120 people
- Restaurant and tea house
- Glass Pyramid and Fireplace Room
- Dance hall and private apartments
- Volleyball and Tennis Courts,
- Beauty Studio and Sauna
- Park and small lake

The ecobiological centre LIZARI is constantly in the process of renewal and development.

Today this unique complex has become an international ecobiological centre of education, art and unique architecture that offers to Latvian and foreign customers high quality tourist and education services.

In order to approximate quality of professional preparedness and competitiveness of youngsters to the level of the European Union and the world level, LIZARI became a meeting centre for active youth from various countries – Latvia, Russia, Lithuania, Ukraine, Italy, Germany, Brazil, Kazakhstan, the Czech Republic etc. Youngsters are fruitfully practicing the new experience gained through education in their countries each.

As a result of creation and development of the complex LIZARI attracting means of private investors, European and state budget co-finances are evident the following achievements:

- ✓ Development of economic activity in the rural area. Are enlarged possibilities of employment out of the traditional rural economy and the level of unemployment is decreased
- ✓ Increase of incomings of local population from alternative incoming source.
- ✓ Improvement of Vircava district's environment preserving its historical landscape.

**We wake
up to the
initiative!**

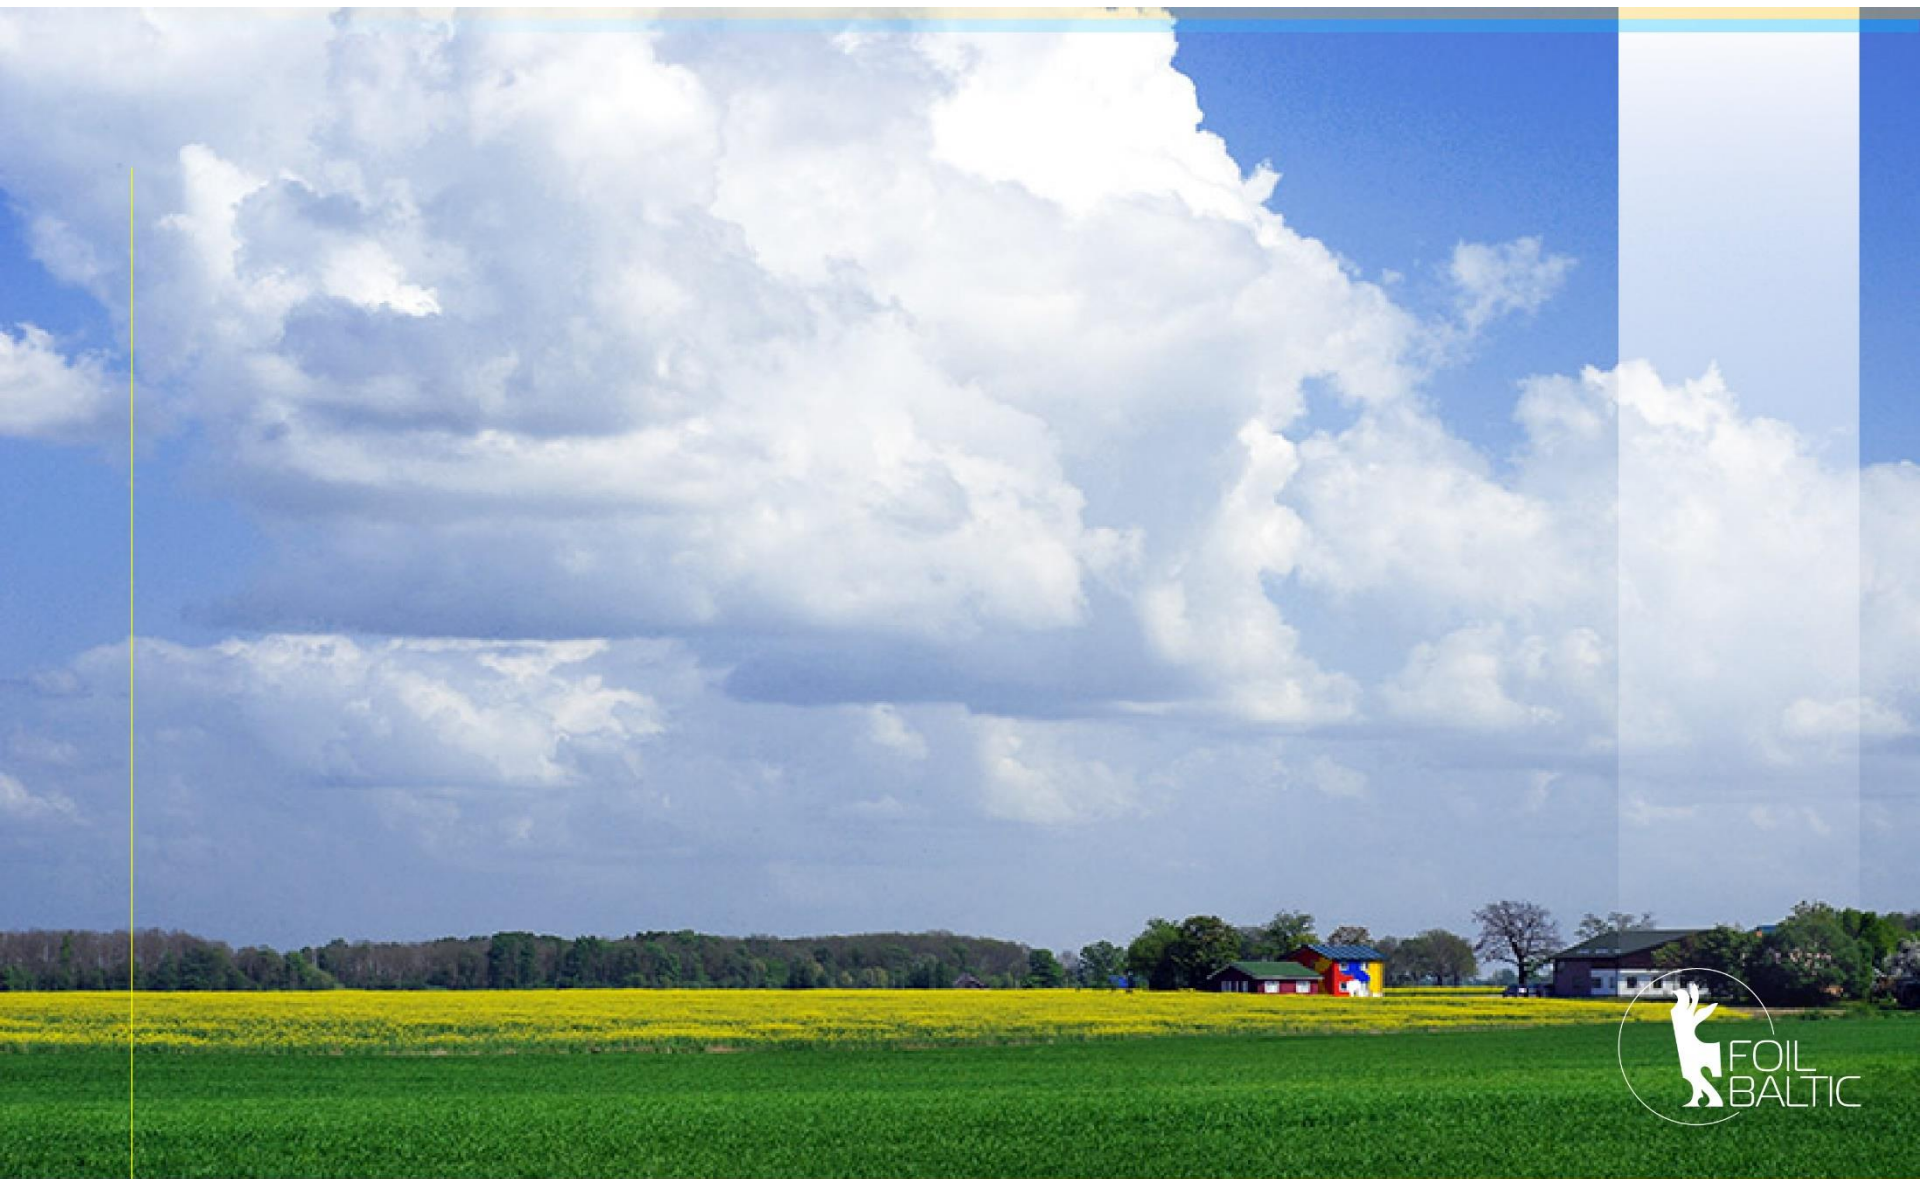

**LIZARI
are
a strong
Latvia in
miniature**

- ✓ Facilitation of a general economic development of the region.
- ✓ Development of tourism and relevant fields in the Zemgale's region and Latvia in general.
- ✓ Provision of youth with practical trainings in terms of real life situation, facilitation of their responsibility, motivation and work experience.

This and the previous achievements are strictly in accordance with the 7th UN Millennium Development Goal's first sub-aim "Integrate the principles of sustainable development into country policies and programs; reverse loss of environmental resources".
